LEGISLATIVE COUNSEL'S DIGEST

SB 248, as amended, Oropeza. Educational equity: Title IX.

(1) Existing law prohibits discrimination on the basis of disability, gender, nationality, race or ethnicity, religion, sexual orientation, or other specified characteristics, in any program or activity conducted by an educational institution, as defined, that receives, or benefits from, state financial assistance or enrolls pupils who receive state student financial aid. Existing law prohibits public funds from being used in connection with any athletic program conducted under the auspices of the governing board of a school district or a student organization with the district that does not provide equal opportunity to both sexes for participation and for use of facilities. Existing law lists the rights that are based on the relevant provision of the federal regulations implementing the federal law prohibiting discrimination on the basis of sex in education programs and activities (Title IX) and requires the State Department of Education to post that list on its Internet Web site.

This bill would require a school district ~~that elects to offer a competitive athletic program to its pupils, the president or chief executive officer of a community college campus, and the president of a campus of the California State University, by July 1, 2010,~~ to place

on ~~its~~ *their* Internet Web site, and post on the entrance to the ~~school gymnasium~~ *gymnasiums of the schools, colleges, or universities, as the case may be*, and in the locker rooms, the list of rights accorded to pupils under Title IX. *The bill would request the chancellor of a campus of the University of California also to place the list of those rights on the campus Internet Web site and post them in the university gymnasiums and locker rooms by July 1, 2010.* By requiring school districts and community college campuses to post this information, the bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: yes.
